

Question no:-5

```
1 function Student() {  
2     this.name = 'John';  
3     this.gender = 'M';  
4 }  
5  
6 var studObj = new Student();  
7  
8 Student.prototype.sayHi= function(){  
9     alert("Hi");  
10 };  
11  
12 var studObj1 = new Student();  
13 var proto = Object.getPrototypeOf(studObj1); //  
14  
15 alert(proto.constructor); // returns Student fur
```
