

## Question no:-1

```
1 <!DOCTYPE html>
2 <html>
3 <head>
4 <title>
5 style.display
6 </title>
7 </head>
8 <body>
9 <h1>
10 Welcome to the javaTpoint.com
11 </h1>
12
13 <h2>
14 Example of the JavaScript's style.display property
15 </h2>
16
17 <div id = "div" style = "background-color: yellow">
18 This is the div element.
19 </div>
20 <p id = "p"> This is a paragraph element. </p>
21 <button onclick = "fun()" id = "btn">
22 Click me!
23 </button>
24
25 <script>
26 function fun() {
27 document.getElementById("div").style.display = 'none';
28 document.getElementById("p").style.display = "none";
29 }
30 </script>
31 </body>
32
33 </html>
```
